All God's Creation Likes to Sing
Hand Motions

Chad Watson
CCLI# 7096765
4/4 Time, Quarter note = 65-75 bpm

VERSE 1:
Birds chirp, hear the buzzy bumblebees
Flap your wings like a bird/bee and walk around in circles
Hear crickets play music on their tiny knees
Do the Charleston knee-dance
All of God's creation likes to sing
Spread arms out from body and up, hands around mouth on "sing"
Frogs croak and lions roar
Frog position, then stand, with paws in front and make face like roaring on the word "lions"
Fish go "bloop bloop" swimmin' on the sea floor
Fins on the side of your face on "bloop bloop" then hands together like a fish swimming
All of God's creation likes to sing
Spread arms out from body and up, hands around mouth on "sing"

CHORUS:
You sing to me and I'll sing to you
Point on "you," "me," "I" and "you"
We'll sing to all about God's truth
Hands around mouth on "sing"; hands like bible on "truth"
The truth is He gave His only Son, Jesus
Gesture like holding something out to someone, ASL Jesus
It can only be that this melody
Hands on hips matter-of-factly, cup hand around ears
Is His love for you and me
Hug yourself, Point to "you" and "me"

VERSE 2:
Pianos get played and guitars get strummed
Move fingers like piano player and guitar player
Listen to the boom of the big bass drum
Beat invisible marching band drum with mallets
All of God's creation likes to sing
Spread arms out from body and up, hands around mouth on "sing"
Now our voices can be used in many ways
Index fingers out from mouth
But God says use 'em to declare His praise
Slowly lift open hands above head
All God's creation likes to sing
Spread arms out from body and up, hands around mouth on "sing"
Now sing with me
Thumbs to chest on "me"

REPEAT CHORUS

VERSE 3:
La la la la ….
Mime your favorite instrument or animal praising God— violin, accordion, drum set, guitar, piano, banjo, trumpet, sax, trombone; elephant, lion, frog, horse, fish, anything!

REPEAT CHORUS
